

Year 2, Term 1

Target: to know all number bonds for 10 and 20

Key vocabulary

add, take away, less than, how many,
addition, subtraction, fact families,
addend, sum

Key questions

What is $\underline{\quad} + \underline{\quad}$?

What is $\underline{\quad} - \underline{\quad}$?

Examples

$$\begin{array}{l} 9 + \text{ } = 10 \\ 3 + \text{ } = 10 \\ 2 + \text{ } = 10 \\ 4 + \text{ } = 10 \\ 5 + \text{ } = 10 \\ 8 + \text{ } = 10 \\ 7 + \text{ } = 10 \\ 1 + \text{ } = 10 \\ 6 + \text{ } = 10 \\ 10 + \text{ } = 10 \\ 2 + \text{ } = 10 \\ 5 + \text{ } = 10 \end{array}$$

Top Tips

The secret to success? Practise little and often! Can you learn these on your way to school? On a car journey? Or even at the breakfast table? You don't need to learn them all at once: start with those you are more confident with before tackling the rest.

Use what you already know – Use number bonds to 10 (e.g. $7 + 3 = 10$) to work out related number bonds to 20 (e.g. $17 + 3 = 20$).
